

Cardo Scala Rider FREECOM Systems

Stay in touch whether you're riding solo, two up, or in a group. Cardo's FREECOM 1 connects riders to their phone, GPS, and music. FREECOM 2 allows for intercom communication between rider and passenger, including non-Cardo headsets. FREECOM 4 is designed for four-way communication. Share music, converse with nearby riders, make or reject calls, and follow GPS instructions. Water-proof and dustproof, all have a 13-hour talk time. When hooked up to the Cardo SmartSet App (iOS and Android), pairing and setting up the units is a breeze! Available late February for \$139.99 to \$389.95. www.cardosystems.com

Bell Moto-3 Helmet

Instead of searching eBay for a '70s Moto-3, riders can retain that retro look with the reissue of one of Bell's most famous helmets. The new Moto-3 maintains its original styling, with a lightweight fiberglass composite shell, EPS-lined chin bar, removable anti-microbial liner, and secure five-snap visor. Three shell and EPS sizes ensure a personalized fit, and brilliant colors and candy-striped graphics lend a sharp, classic look. DOT and ECE certified, this is one of the coolest lids around. Available in seven color schemes, sizes XS - XXL, for \$349.95 at www.bellhelmets.com.

Handpresso Auto Portable Espresso Machine

At just under two pounds, the Handpresso machine combines quality coffee and mobility to give you a delicious pour anytime. Ideal for motorcyclists on the go, it uses a 12-volt outlet and ESE (Easy Serving Espresso)-compatible pods, or you can purchase the company's ground coffee adaptor to make your own. Just remember it needs to be a fine grind. Invented by an espresso lover who was often on the go, the machine retails for approximately \$144, or 132.50€, with an array of accessories and more available at www.handpresso.com.

ThermaCELL ProFLEX Heavy Duty Heated Insoles

ThermaCELL's new heavy-duty heated insoles provide warmth at the touch of a button—on your smartphone! Adjust the temperature inside your boots using your iOS or Android device: low (100 degrees), medium (110 degrees), or high (115 degrees). The rechargeable lithium-ion polymer battery lasts for up to 8.5 hours of constant use on low heat, and quick-charge technology boosts power back to full in two hours. Water resistant, the insoles can be trimmed to fit almost any boot size, and are available in men's 3.5 - 13 and women's 4.5 - 14 for \$134.99. Product ships to U.S. only. heat.thermacell.com

ShockStrap Tie Downs

These tie downs feature a urethane shock absorber that allows just enough movement caused by bumps and vibration to keep tension on the strap. It's the safest tie down on the market we've seen! The ratchet strap comes in multiple sizes and is priced between \$39.99 to \$54.99. Rust resistant, the ratchet straps are not affected by most chemicals, sunlight, oil, salt water, fungus, or moisture, and have a breaking strength of more than 4,600 pounds. Cam straps come in six, 10, or 19 feet, have a wider hook, and won't come loose over bumps. Pricing starts at \$21.99. www.shockstrap.com
